65-098A-00D

ALOUETTE II EXTENDED WORLD MAPS

This data set consists of ~~[illegible]~~ 18 X 2 556 BPI, Binary, 7-track tapes made on the IBM-7094. Each tape has one file on it. The end-of-file can be recognized by the multiple use of the number 200777777776. The tapes in this data set were made from the originals because the originals did not have EOF's on them. The originals were returned to the experimenter.
